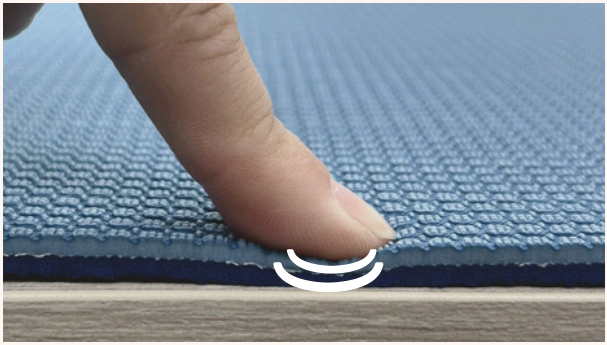
FEATURES

Premium Cushioning

The double-layer design with 8 mm thickness provides excellent cushioning, protecting your joints, hips, and knees during every yoga poses. Even during single-point support poses, it delivers optimal support and cushioning.



Lightweight & Portable

One of the greatest advantages of a TPE yoga mat is its lightweight and portable design. Whether you're practicing at home, in the studio, or outdoors, it supports your passion for yoga and allows you to move freely, anytime and anywhere.

Water Resistance

Made with closed-cell TPE foam, the mat features excellent water resistance that prevents moisture absorption. Water, sweat, and even oils can be easily wiped off, ensuring a clean surface and maintaining optimal performance and durability throughout repeated use.

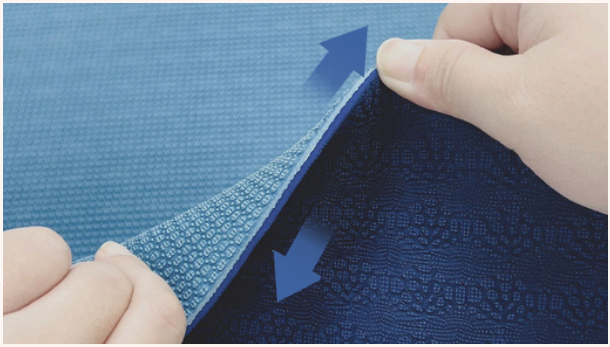
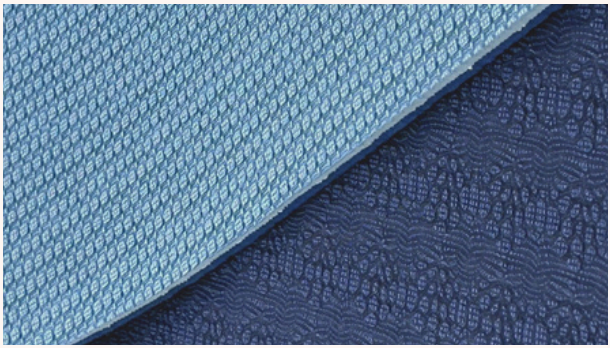
Tear Resistance

By laminated fabric in between the upper and lower foam layers. This integrated processing method improves structural stability and tensile strength, allowing the mat to better withstand stretching, repeated use, and pressure without tearing or damage, ensuring long-lasting durability.



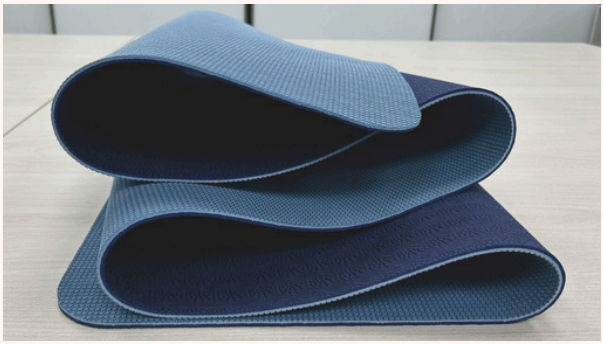


Two-sided Non Slip Texture

Manufacture textured patterns by embossing process. The raised and recessed surface design enhances grip and slip resistance, helping stable and secure throughout whole yoga practice.

Comfortable & Soft Hand-feel

Provides gentle support for your hands and body, reducing fatigue during long practices. The smooth, soft hand feel texture also enhances comfort, allowing to focus fully on yoga poses without distraction.



Rapid Rebound

EVA GLORY's TPE yoga mat can quickly returns to its original shape when unrolled. The edges and corners remain flat and do not curl, allowing the mat to lay smoothly and closely on the floor, ensuring a consistent and comfortable surface every time.
